## Annual Meeting Postponed - No Summer Concert

---

### King Water Reminds Us...

As property owners we need to keep our water meters free and clear from over-growth of shrubs, plants, grass and weeds. King Water needs access to read each meter.

Please check your meter soon.

### Fire Hydrants

#### Everything grows like crazy around here!

Do you know where the closest fire hydrant is for your property? In an emergency is it clearly in sight and easily accessible? Notify a member of the Dugualla Board if your fire hydrant has become obstructed by bushes, tall weeds or grass. Better yet, maybe you can clear away the offending greenery and help keep your neighborhood protected.

### *Hello Dugualla Community Neighbors,*

Due to COVID-19 restrictions and the Board's desire to keep everyone well and safe, the summer concert scheduled for August 29 is cancelled and the Dugualla Community Annual Meeting scheduled for Sept. 19 is postponed to a later date. The DCI Board of Directors is following Island County guidelines and will announce a new date for the annual meeting as soon as possible.

### Jet Noise?

We love our Navy fliers and let's help them remember to be good neighbors. Keep track of time/dates when you notice flights that are off their designated paths and coming in low over our homes. Send your email to: [comments.NASWI@navy.mil](mailto:comments.NASWI@navy.mil)
